

SEPTA Transit Network COVID-19 Lifeline Service Map

Effective April 26, 2020

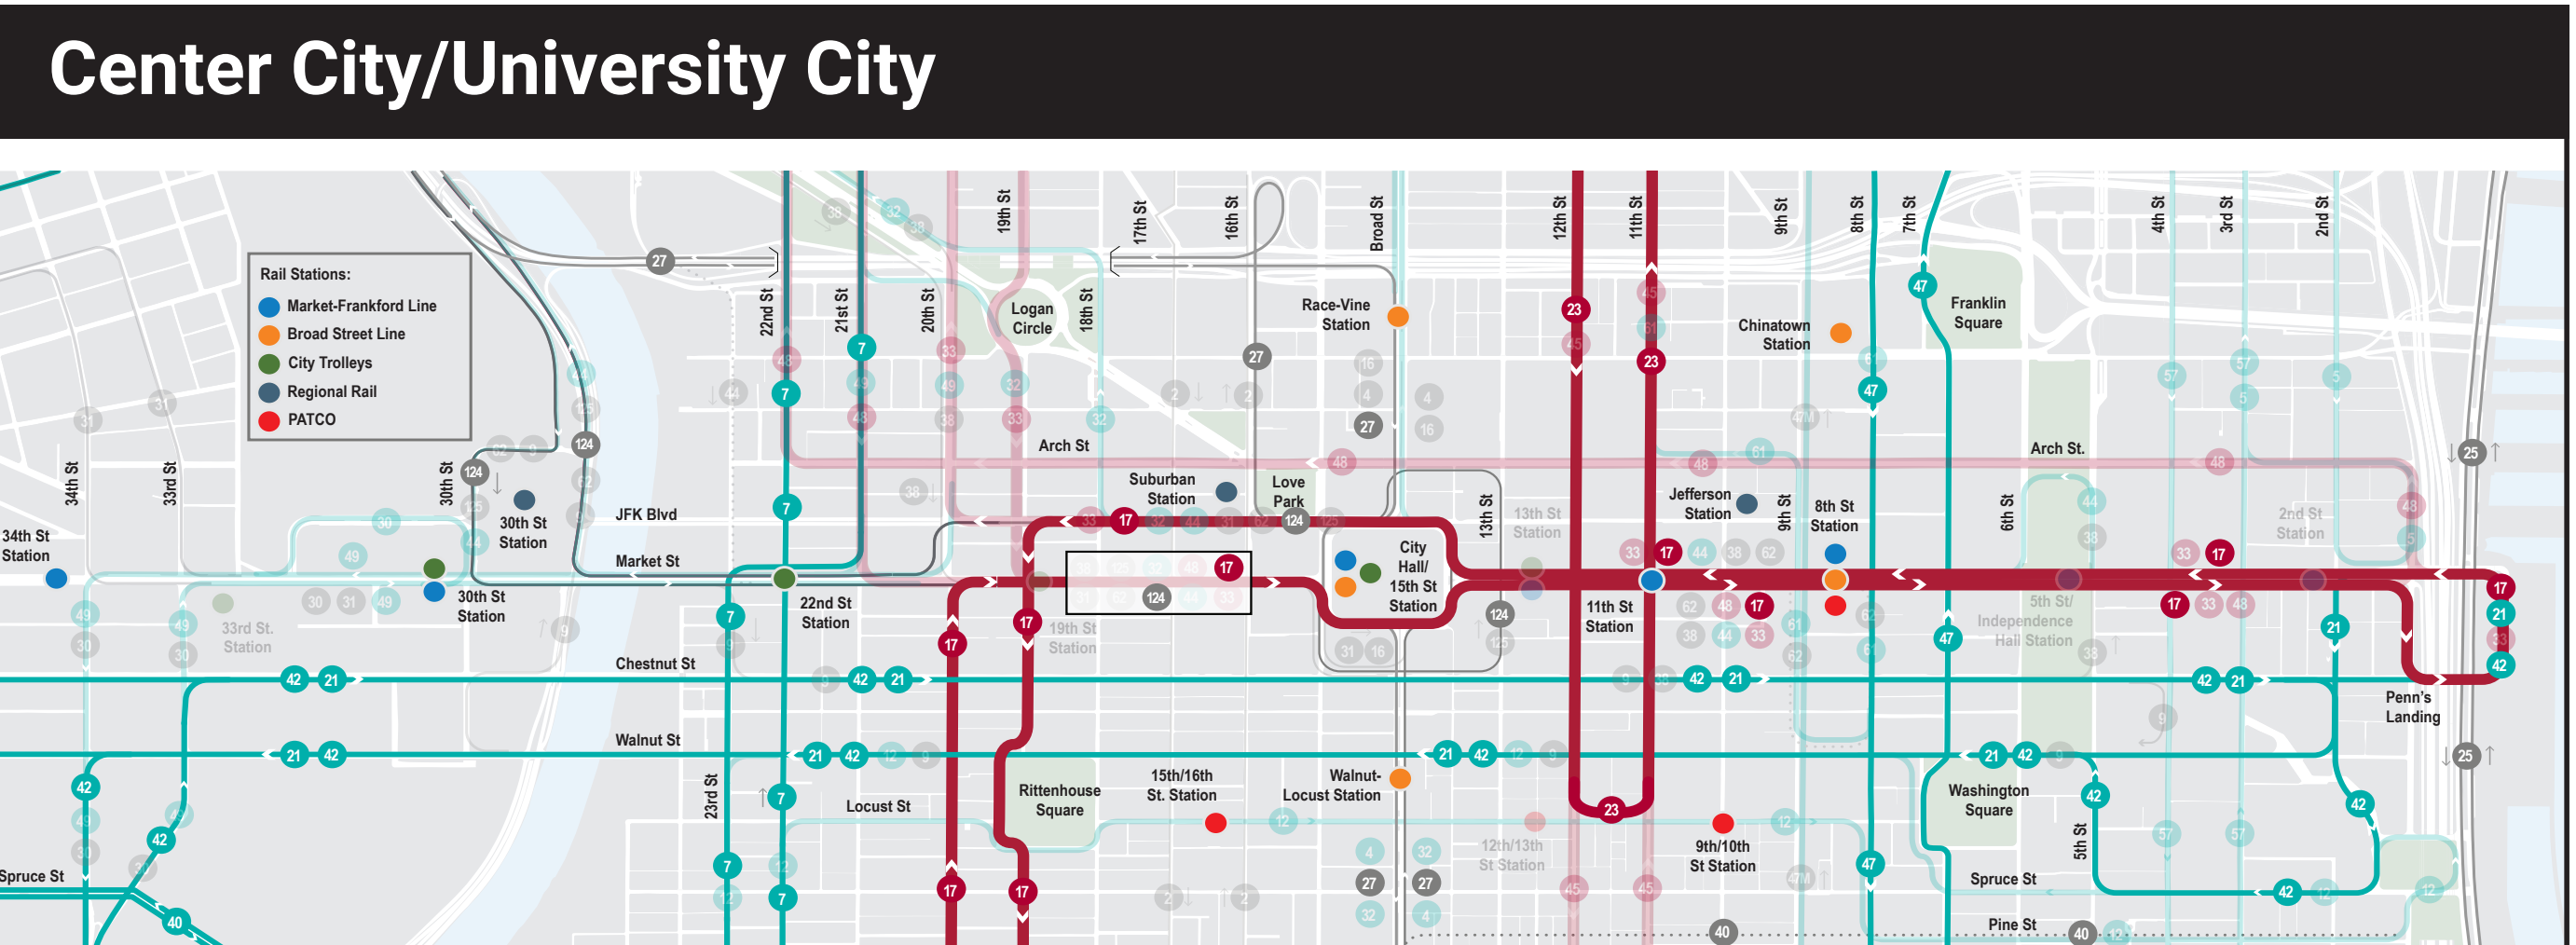

COVID-19 SERVICE ALERT

This is SEPTA's modified Transit Network Frequency Map showing service in operation during our Lifeline Service Schedule in response to the COVID-19 pandemic. To protect the health of our customers and employees, resources are limited, and we are working overtime to make sure our system is safe and healthy.

SEPTA's Lifeline Service schedule is meant to support essential workers, and those making essential trips, through this unprecedented time. If you are not an essential worker, or you're not trying to access an essential place like a grocery store, health center, or pharmacy, please stay home! We are all in this together, and we hope to see you back on a bus, trolley, or train soon.

This map shows stations and routes that are open and operating in their usual bold colors, while those that are suspended or closed are faded into the background. Bus routes are shown in different colors to show how often they come during the day. Please check a schedule before you use a SEPTA service during this time, at www.septa.org/covid-19.

Sub/e and Trolleys

Service based on a Saturday schedule.
