SEPTA Transit Network
COVID-19 Lifeline Service Map

This is SEPTA's modified Transit Network Map showing service in operation during our Lifeline Service Schedule in response to the COVID-19 pandemic. To protect the health of our customers and employees, measures are limited, and we are working overtime to make sure our system is safe and healthy.

SEPTA’s Lifeline Service schedule is meant to support essential workers, and those making essential trips, through this unprecedented time. If you aren’t an essential worker, or you’re not trying to access an essential place like a grocery store, health center, or pharmacy, please stay home! We are all in this together, and we hope to see you back on a bus, trolley, or train soon.

This map shows stations and routes that are open and operating in their usual service areas, where those that are suspended or closed are highlighted in the background. Please note that colors correlate only generally to frequency in this version. Please check a schedule before you use a SEPTA service during this time, at www.septa.org/2020-19.
