TRAVEL TIPS

• NEVER pass between cars when a train is moving
• NEVER attempt to board a moving train
• ALWAYS wait for the train to come to a complete stop BEFORE exiting
• NEVER ride in the vestibule or on the steps of a moving train
• NEVER lean against the train doors

SEPTA'S TRAVEL TIPS: To provide for the safety of our passengers, SEPTA has implemented new travel tips. These tips are designed to reduce the risk of injury or death due to the behavior of passengers, SEPTA personnel, or third parties. The new travel tips are being implemented in response to a number of incidents that have occurred in recent years. These incidents have resulted in a variety of injuries, ranging from minor bruises and cuts to severe head injuries, spinal cord injuries, and even death. The new travel tips are intended to help ensure the safety of all passengers and SEPTA personnel.

SCHEDULE OPTIONS:

• Frequent service - Service operates at frequent intervals, with trains arriving at each station approximately every 10 minutes.
• Limited service - Service operates at less frequent intervals, with trains arriving at each station approximately every 15 minutes.
• Reduced service - Service operates at even less frequent intervals, with trains arriving at each station approximately every 20 minutes.

SEPTA'S COMMUTER SCHEDULE: SEPTA's commuter schedule is designed to meet the needs of commuters who use public transportation to travel to and from work. The schedule includes peak and off-peak hours, with trains operating at different frequencies during each period. The peak hours are generally defined as the period from 6:00 AM to 9:00 AM and from 3:00 PM to 6:00 PM. During these hours, trains operate at a higher frequency than during the off-peak hours. The off-peak hours are generally defined as the period from 9:00 AM to 3:00 PM and from 6:00 PM to 6:00 AM. During these hours, trains operate at a lower frequency than during the peak hours.

SEPTA'S WEEKEND SCHEDULE: SEPTA's weekend schedule is designed to meet the needs of passengers who use public transportation on weekends. The schedule includes peak and off-peak hours, with trains operating at different frequencies during each period. The peak hours are generally defined as the period from 8:00 AM to 9:00 AM and from 4:00 PM to 5:00 PM. During these hours, trains operate at a higher frequency than during the off-peak hours. The off-peak hours are generally defined as the period from 9:00 AM to 4:00 PM and from 5:00 PM to 8:00 AM. During these hours, trains operate at a lower frequency than during the peak hours.

SEPTA'S SPECIAL SCHEDULES: SEPTA's special schedules are designed to meet the needs of passengers who use public transportation for special events or occasions. These schedules include special service options, such as extended hours or increased frequency, to accommodate the needs of passengers who are attending special events or occasions. The special schedules may be implemented for a variety of reasons, such as sporting events, concerts, or other special occasions.

SEPTA'S WEEKLY SCHEDULE: SEPTA's weekly schedule is designed to meet the needs of passengers who use public transportation on a weekly basis. The schedule includes peak and off-peak hours, with trains operating at different frequencies during each period. The peak hours are generally defined as the period from 7:00 AM to 9:00 AM and from 4:00 PM to 6:00 PM. During these hours, trains operate at a higher frequency than during the off-peak hours. The off-peak hours are generally defined as the period from 9:00 AM to 4:00 PM and from 6:00 PM to 7:00 AM. During these hours, trains operate at a lower frequency than during the peak hours.

SEPTA'S MONTHLY SCHEDULE: SEPTA's monthly schedule is designed to meet the needs of passengers who use public transportation on a monthly basis. The schedule includes peak and off-peak hours, with trains operating at different frequencies during each period. The peak hours are generally defined as the period from 7:00 AM to 9:00 AM and from 4:00 PM to 6:00 PM. During these hours, trains operate at a higher frequency than during the off-peak hours. The off-peak hours are generally defined as the period from 9:00 AM to 4:00 PM and from 6:00 PM to 7:00 AM. During these hours, trains operate at a lower frequency than during the peak hours.
